

# EMP-2 Mercury Survey Meter

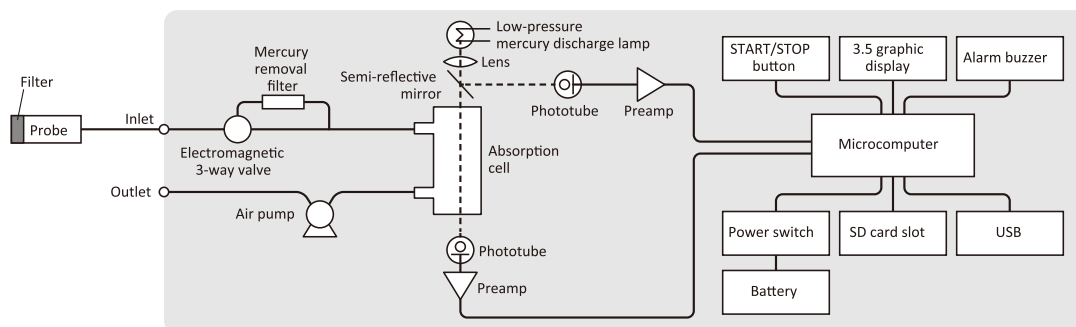

*In-situ* measurement of vapor phase Mercury in ambient air

**Model EMP-2**  
Measuring range: 0 to 1000 $\mu\text{g}/\text{m}^3$  Hg

**Model EMP-2H**  
Measuring range: 0 to 10000 $\mu\text{g}/\text{m}^3$  Hg

**Compact & Light weight**  
Weight only 1.8kg

**Easy Operation**  
Color LCD touch screen display and one button START/STOP operation

**Real-Time Measurement**  
Real-time concentration  
Maximum concentration  
Average concentration

**Meets Guidelines**  
Meets international guidelines and protocols

**EMP-2 comes with a robust carry-case**

**Shoulder & waist sling design to allow hands-free carry & operation**
